

Eden Mill Interactive Paranormal Investigation

*Ghosts aren't real,
right?*

*A 200 year old
building has history...*

Join Eden Mill and the staff of Gear 51 Paranormal Resource Center on an educational tour followed by an interactive investigation of a 200 year-old mill.

Attendees of this special event will learn all about the history of Eden Mill during a guided tour, which will include access to areas of the structure that are normally restricted to Mill personnel only. The tour will be followed by a presentation hosted by Gear 51 Technical Consultant and Pennsylvania Paranormal Magazine writer Darren Holland on the basics of conducting paranormal research. Then it's "lights out" for an interactive paranormal investigation of the mill. Participants will be led to various parts of the mill where they will get some hands-on experience using some of the most up-to-date paranormal equipment used in the field today, and will also get to see some one-of-a-kind prototypes of new technology that cannot be seen anywhere else. Participants will also be given their own personal copies of any potential evidence that is captured during this investigation that might be paranormal in nature. Are there entities stirring in the darkened corners of Eden Mill at night? Do ghosts even exist, or is there a logical explanation for everything that goes bump in the night? You decide. Guests are encouraged to bring their own flashlights, cameras, audio recorders, and anything else they may wish to document their experience with.

Date: Saturday, June 23rd

Time: 7-11pm

Fee: \$30/member or \$35/nonmember, benefiting EMNC

Ages: 16 and older

Space is limited!
